ANALYSIS OF CONTENTS OF CURRENT AND HISTORICAL ORGANIZATION FILES

EXHIBIT 29

This analysis was based on a random sample of 60 of the approximately 2500 organization files. The results are therefore accurate to within plus or minus 5% with a probability of 95%
The first figure is the percentage of the sample of current organization files which had the information indicated. The second figure in brackets is the percentage of the sample of historical organization files which had the information indicated.
The same organizations were used in analysing the current and historical files
Correspondence with the UIA and Yearbook proofs were not included in the analysis
