Notes:

- (1) Cards have no date to show whether membership is current; changes of address are not notified to person responsible for maintaining file
- (2) A file exists for each organization as part of the collection on all international organizations
- (3) Maintained until 1959; 3 letters since
- (4) It is not certain that all Associates have marker/indicators, or whether those that do have them have a right to them
- (5) Marker/indicators exist for all international organizations and for purchasers of magazine; can therefore deduce which organizations might be corresponding members, except that this gives no indication whether those in this group have agreed to be members. The address plates must therefore be examined with the card file
- (6) No special indicator had been allocated to this group
